Sixth Conference on Numerical Analysis and Applications, June 15-22, 2016 Lozenetz, Bulgaria

Organized by Division of Numerical Analysis and Statistics, University of Rousse, Rousse, Bulgaria.

This conference is sixth in a series. The first meeting (Jun24-28,1996) attracted over 80 participants from more than 22 countries. Among them there were 24 participants from Bulgaria and 20 participants from the remaining Eastern European countries. In this way the meeting facilitated an exchange of ideas between East and West. The refereed Proceedings were published by Springer Verlag in their Lecture Notes in Computer Science series (LNCS)(vol.1196).

The second one (June 11-15,2000) attracted over 100 participants from more than 23 countries, among them there were 21 participants from Bulgaria and 22 participants from the remaining Eastern European countries

The third one (June 29-July3,2004, LNCS, vol.3401), the fourth one (June 29-July 3,2008, LNCS, vol.5434) and the fifth one (June 15-20,2012, LNCS, vol.8236) were held with the same success.

Special topics:

Novel methods in computational finance based on the FP7 Marie Curie Action, Project Multi-ITN STRIKE - Novel Methods in Computational Finance, Grant Agreement Number 304617;

Advanced numerical and applied studies of fractional differential equations.

The main tracks of the conference are planned to be:

1. Numerical Approximation and Computational Geometry
2. Numerical Linear Algebra and Numerical Solution of Transcendental Equations
3. Numerical Methods for Differential Equations
4. Numerical Stochastics
5. Numerical Modeling
